## An Appreciation of Dr. Amelia Yeomans

Canada is getting older, and the way to find it is to look at the pictures away from the men and women we have grown to love as long as Canada writes her name among the nations.

Dr. Amelia Yeomans, whose death occurred recently in Calgary, has been a striking figure for many years in the cities of the West. A physician, she has been a leader in the forefront of every movement that had at heart the good of the community.

Another handsome soul is a lady from whom we can learn a lot. She is a Turkish woman, wife of a Turkish engineer, a social worker, she has left her family on the West, but has a good heart. Children loved her and no one held out a hand to her. She is a good woman.

Like old wine, Persian and Turkish carpets improve with age, and this woman, though she died at the place where she stood will know her no more, but other women will step up from her.

For such as that of Dr. Yeomans are not lived in vain.

## Regina W. C. T. U. is For the Suffrage

The W.C.T.U. of Regina has come out strongly for women's suffrage in the province of Saskatchewan, passing a resolution to that effect.

Whereas the women of Saskatchewan are intelligent, as all women who have recently been in Australia, New Zealand, and the United States, and are patriotic as their sisters of Australia and New Zealand.

"Resolved, that we consider it unwise to longer derive the wives and mothers of the people from the public affairs, and do hereby request the provincial government to confer upon them the right to vote."

Other workers why the Union should wish to restrict the franchise to wives and mothers, who often do not even vote in the general election, are the ballot. Moreover, unmarried women and widows, especially those who are contributing so greatly to the economic upbuilding of the country, might be denied the right to vote.

Other workers why the Union should have a strong interest in the suffrage movement are the industrial problems of the day.

In the way of the Regina Conference, the W.C.T.U. of the conference, attributed the resolution to the women of Saskatchewan, and Regina appreciated the mistake not at all.

## What the Advance Men Say

### MERRY WIDOW TOMORROW

Tomorrow night at the Empire will be the opening of the season's most attractive bill, an entertainment which is expected to make the highest box-office records of the season. It is Henry W. Savage's enormous and brilliant revival of the world's unique and famous musical comedy, "The Merry Widow," and it comes here endorsed by the newspapers and publics of every city in the country. It is to be the biggest and finest production of "The Merry Widow" that Mr. Savage has ever sent on tour.

The Merry Widow organization, the leadership of which Mother, interprets the scene, while the most radiant, alluring, glorious, young crowd of chorus girls who ever sang and danced with a gayety, enthusiasm and abandon which are described.

Of the costumes and scenery, it is only necessary to say that the latter was designed especially for the stage, and that the four leading maidens of art were given carte blanche by Mr. Savage this summer, when he ordered the gowns and sets.

Florida Women Want Ballot. Tallahassee, Fla., May 6.—Not denied by the defeat in the House last week of a bill to propose a constitutional amendment granting suffrage to women, state-senators from all over the state, on the second day of the session, urged the Senate to pass a resolution permitting the voters to settle the question at the 1914 election.

## Entertainments

### THE TALKING PICTURES.

"We have clapping my hands as if for real actors," exclaimed a little girl at the Empire Theatre yesterday. "I don't know what it means, but I am apprehensive to see if her unostentatious applause of the talking motion pictures is the same as the audience's enthusiasm. Her concern was understandable, for the shadow actors were not only silent, but, indeed, did not move, and the perfect harmony of action and voice was shared by the talking pictures and the audience throughout this week through both interest and curiosity to view the pictures, and especially to hear the words of the pictures, which Thomas A. Edison has said is his latest, greatest and most wonderful invention.

The rest of the bill moves swiftly and displays variety that is out of the ordinary. Andrew Mack, the celebrated violinist, will be here Saturday now as he was years ago, and his program of songs and stories is being repeated. Irene Beresford, Anna Matthews and Shelly are appearing in the second position, while the Five Hairs, Willard and Cain, the Five Hairs, and the others are leaving nothing to be desired in their respective fields.

Another handsome soul is a lady from Siberia, whose name is Anna. Her dark, rich shade blend beauty and vegetable dyes defying death and water.

## SEES IN LE PAS A DUPLICATION OF EDMONTON

General Superintendent Brown  
Returns From Trip to H.E.  
Railway Terminus

TWO TRAINS DAILY ON  
THE C.N.R. MAIN LINE

Enormous Traffic Is Now Being  
Handled From Edmonton to  
North Country

W. A. Brown, general superintendent of the Canadian Northern Railway, Western division, arrived back yesterday from a trip to H. E. Alberta, where he has been during the past few days arranging for improved equipment, new rolling stock and in improved passenger service. The trains to and from Hudson's Bay junction will run three times a week, says Mr. Brown. He was interviewed by the town council with regard to the road and gravel needed in connection with the railway line and with regard to better waiting-room accommodations by the local hoteliers. In both cases he was able to satisfy the delegations. Extra tracks will be provided in the town.

### Interest, Comparison.

Mr. Brown, who is one of the oldest residents of Western Canada, believes there is a great future ahead of Le Pas which he compares to Edmonton in the days of the maximum of the C. N. and E. railway, to Winnipeg at the time the first trans-Canada railway came through. At that time in a single year the traffic in grain alone came when about 200 miles of track in the C.N.R. stood at Winnipeg while the grain was being received in the immense grain traffic of the Western provinces which some people were then inclined to consider were nothing more than an immense "muckrat farm."

### Match Needed.

The Borden's Bay road said Mr. Brown, was not to provide a much-needed additional outlet for Western grain. While much of the country through which the road passes might not be suitable for agriculture, considerable towns were bound to spring up along the line of the road and could bring in settlers, and the trend of migration to the West was to follow the line of the road, which was considered to be the general prairies and which would soon be exporting a large proportion of the total grain. The road, he said, was to bring the railways to the edge of the prairies.

**Approved Service.**  
As soon as the summer service goes into effect on June 1st a double day service will be had on the line between Edmonton and Spruce Grove, and passengers from Edmonton and Spruce Grove will travel over the section to either Spruce Grove or Edmonton. Improvements in the Edmonton district will be made and the daily passenger service to Athabasca will be put on.

**Apprentices Appointed.**  
Apprentices appointed until June 1st were: Senate Hotel, Queen's (for both renewals and renewals), Case, Capital, White Rock, Royal, and Alberta wholesale license; the J. R. Morris wholesale license; the J. R. **Report is Denied.**  
The commissioners made the recommendation that improvements be made in the fire safety of hotel houses. In regard to sheeting the commissioners thought that it was most important that the sheeting be made of a material that sheets on hotel houses should be sufficiently long that they could be easily joined together. The use of the blankets and coverlet so that the face of the sleeper would not be exposed to the fire was also recommended. The commissioners recommended that the length of sheeting for a bed should be at least nine feet.

The chairman of the committee in charge of the hearing regarding the Edmonton licensees, said it had been reported to the board that the licensees had been asked if the board was going on in the South. He was warned the licensees that if this was a fact and additional reports were presented to the committee, the board would immediately suspend the licenses of the offending houses.

The board of license commissioners sitting in the city yesterday recommended that the licensees be suspended.

AUSTRIA OPPOSES GROWTH OF SMALLER NEIGHBORS.—The dispute started Monday, which came into focus in causing war in Europe. Austria is interested in the settlement of the Italian war as it concerns the Adriatic Sea. She has decided to withdraw if her enemies will permit. The Austrians and Montenegrins had entered Scutari, capital of Albania, and at first proposed to hold it against the Greeks. However, he finally yielded to pressure brought by the Great Powers.

## ASSASSIN OF KING GEORGE IS A SUICIDE

Alexo Shinas, Who Shot King of Greece, Flings Himself from Prison Window.

DOCTORS SAID HE WAS DYING OF CONSUMPTION

Reason for Assassinating King Was Refusal of the King to Assist Him.

Athens, May 6.—Alexo Shinas, who assassinated King George of Greece on March 18th, at Salmon, committed suicide yesterday by flinging himself out of a window of the prison station in that city.

Shinas was a native of the town of Vassilissi. He killed the King of Greece, while he was walking along a street of Salonic, accompanied by an aide-de-camp, and was tried for the crime that in 1911 he had applied for assistance at the king's palace, and had been driven away.

At the time of the trial, Shinas announced that he was dying of tuberculosis.

ELEVATOR ACCIDENT IN C. P. R. BUILDING

Joseph Jackson, Elevator Operator, Put Head Out of Door and Is Caught by His Elbow Above—Now Has Hospital with Little Chance of Recovery.

Living in an unconscious condition at the Misericordia Hospital, his left leg broken in three places, a deep gash in the back of his head, broken arm, and a broken bone in his right hand, there is little chance of recovery, although attending physicians state that there is still hope.

At 4:55 a.m. yesterday the injured man, according to Mr. Watson, manager of the building, was in charge of the elevator. The only passenger who was in it at the time wished to get off on the second floor, but for some unknown reason the elevator did not stop here, and Jackson, putting his hand out to steady himself, fell between the floor and the door above, his leg being crushed in the space of an inch or two between the iron beam and the cage.

It was not until a few moments afterwards that the passenger became aware of the accident.

He was taken to the Misericordia Hospital in Connelly and McKinley's and was given a medical examination.

The injured man is fifty-six years of age and has a wife and three children. He resides at 945 Fifth street.

Calgary, May 6.—The first interview in Calgary by a survivor of the Scott expedition was given here Saturday morning by Leot, Gran, one of the members of the Scott party.

Leot, Gran, was one of the rescue party that discovered the bodies. He claims that exhaustion, not starvation, was the cause of death.

Calgary, May 6.—The first interview in Calgary by a survivor of the Scott expedition was given here Saturday morning by Leot, Gran, one of the members of the Scott party.

Leot, Gran, repudiated the theory that the members of the Scott party gained in the final dash were looted.

He says that owing to the numerous changes of the very cold weather the party used up its fuel much more rapidly than had been anticipated and did not find food or supplies until it was nearly exhausted. Leot, Gran, was one of the rescue party that discovered the bodies. He claims that exhaustion, not starvation, was the cause of death.
